i started playing age 14 on a battered old acoustic,wrote my first song age 14 called lbaby dove.i listened to all great groups like abba ,roxy music,blondie and the early rockers like eddie cochran,little r.,chuck bb king ,albert collins,joe tuner the list is endless.i formed my first band in 1990 called !ricky fentone and the flat top cats!,we recorded three albums ,our first in blackwood,gwent wales called night of passion! on a princes trust grant.our seconmd and third were recorded in hirwaun ,dont knock me dont rock me and cadillac man.originally it was i and my wife silke (from germany).we met at a successfull 1980s popstars gig as friends then we married and silke became my bass player(later keyboards also!.we gigged for around 6 years in wales and i then decided to concentrate on my recording/songwriting side as i had ammassed around 300 songs that needed to be recorded.i wrote a musical in 1997 called !zog!,about a bunch of aliens who take it upon theirselves to form a society basedm on rock n roll after hearing a radio wave of chuck berry.i then produced my first album still under my stage name ricky fentone called !ricky rocks and ricky rolls!in 1997 and then decided to move to cornwall.since ive recored three new albums sexslave,cyberboy and down on the street and have several internet sites up and running.also i have an american promoter who discovered christina aguilara who has me on as an artiste.there is a whole lot more to say and some very interesting stories to tell sadly it would take more space than ive got but thats the basic story so far.
